

Free baggage allowance 2011

All your luggage, including a single piece of hand luggage that you wish to take into the passenger cabin, has to be shown to our check-in staff. This is required for safety reasons.

Before check-in, please put a name and address tag on each piece of your baggage. (all written with Latin letters to help identification by non-Russian speakers).

Your free baggage allowance depends on your flight destinations and service class. Any luggage that is accepted for carriage by Aeroflot will be marked by the check-in staff and is called checked. Please take care of your baggage receipts which you will need in case of delay or baggage loss.

Aeroflot is introducing new simplified baggage policy concept, by implementing harmonized Piece Concept on all Aeroflot routes*.

- The new Piece Concept will be valid for any tickets issued on/after **01.04.2011**.
- New Piece Concept is differentiated based on travel class and / or ticket type.
- The old weight concept rules and excess baggage charges are valid for ticket issued on / before 31.03.2011.

The most advantageous benefits for the customer are:

- Simplicity
- Transparency
- Customer friendly charge for extrapiece

** Cabin hand luggage policy remains unchanged*

Free Baggage Allowance (FBA) Rules
